

## Public Works Flood Control

### Our Mission:

*The mission of the Flood Control program is to provide flood prevention services (inspection, operation, and maintenance) for the Wichita-Valley Center Flood Control Project in accordance with standards established by the Corps of Engineers. This program is administered by the City of Wichita Public Works Department and is funded equally by the City of Wichita and Sedgwick County.*

### Budget Highlights:

The 2000 County appropriation for Flood Control is \$719,920, an increase of \$60,000 over the 1999 adopted budget. The increase will help purchase an automated early warning device for the Cowskin Creek area. Due to increased personnel expense, commodity expense was reduced for the purchase of rip-rap and the purchase of an ALERT system transmitter was delayed to future years.

### Department Recap (1100-1403):

	1998 Actual	1999 Revised	2000 Adopted	1999-2000 % Change
Contractual Services	659,920	659,920	719,920	9.1
Total Department	659,920	659,920	719,920	9.1
